

Sheet Metal Workers

What Is It?

Fabricate, assemble, install, and repair sheet metal products and equipment, such as ducts, control boxes, drainpipes, and furnace casings. Work may involve any of the following: setting up and operating fabricating machines to cut, bend, and straighten sheet metal; shaping metal over anvils, blocks, or forms using hammer; operating soldering and welding equipment to join sheet metal parts; or inspecting, assembling, and smoothing seams and joints of burred surfaces. Includes sheet metal duct installers who install prefabricated sheet metal ducts used for heating, air conditioning, or other purposes.

What Do They Typically Do?

- Getting Information
- Inspecting Equipment, Structures, or Materials
- Monitoring Processes, Materials, or Surroundings

Annual Income:

- Entry Level: \$34,450
- Typical: \$53,440
