Jobs in Idaho

# Calibration Technologists & Technicians

NEXT STEPS IDAHO

## What Is It?

Execute or adapt procedures and techniques for calibrating measurement devices, by applying knowledge of measurement science, mathematics, physics, chemistry, and electronics, sometimes under the direction of engineering staff. Determine measurement standard suitability for calibrating measurement devices. May perform preventive maintenance on equipment. May perform corrective actions to address identified calibration problems.

## What Do They Typically Do?

- Analyze test data to identify defects or determine calibration requirements.
- Attend conferences, workshops, or other training sessions to learn about new tools or methods.
- Calibrate devices by comparing measurements of pressure, temperature, humidity, or other environmental conditions to known standards.

## Annual Income:

- Entry Level: $45,420
- Typical: $60,070
- Experienced: $61,900

## Major Employers:

Manufacturing,Wholesale Trade,Professional, Scientific, and Technical Services

## What do I do next?

### Learn about the job culture:

- Schedule at least one informational interview
- Conduct a job shadow, if possible
- Research available volunteer or intern opportunities

### Prepare for training:

- Visit and call trade schools or colleges that offer a related program
- Research regional job openings at: idahoworks.gov

### Explore all pathways to certification:

labor.idaho.gov/jobscape

### Talk to your school counselor or advisor for more information

## Get started today!

Ask about the career & technical programs at your school or nearby technical college.
