

Social Media Clean Up

STEP 1

Social media is a tool that is becoming more and more powerful in today's world, in both a personal and professional light. Due to the increasing influence that social media has on how people live and communicate, it is important to understand the risks and barriers that exist when using social media. This lesson will help you evaluate your own use of social media and give you the opportunity to implement new barriers to prevent risk or harm to your personal or professional life.

Informational Security: Protecting information and information systems from unauthorized access, use, disclosure, disruption, modification, or destruction in order to provide integrity, confidentiality, and availability.

Social Media Platform: Technology which allows the sharing and interaction of users who form an online community.

Profile: A profile created by an individual or business to share information about themselves and to connect with others.

Presence: Refers to how an individual or company posts and engages on all their social media accounts.
