

Interest Profiler

Suggested timeframe of completion: Beginning of School Year- October 1

STEP 1

As you make your way through high school, you will learn more about yourself. You'll identify things you enjoy, and those you don't like doing as much. Understanding your interests can help you identify careers that might be a good fit for you.

One way to find out how your interests might translate to a career is by taking an interest assessment. The Interest Profiler can match your interests to career options and help you explore the possibilities.
