You've Worked Hard. You're Prepared. You're Ready for College.

Dear Parent/Guardian of [Name],

September 1, 2016

Congratulations! [Name] has been accepted to all of Idaho's public universities and colleges for the fall 2017 semester.

Now that your student has been accepted, please visit NextSteps.Idaho.gov, where you can learn more about the institutions and degree programs offered, find contact information for the institutions listed above and review other helpful information. Even though your child has been accepted, an admissions application along with their official high school transcript will need to be submitted to the college or university of your child's choice in order to enroll for classes next fall. Your child will also need to graduate from high school this school year.

Please help your child investigate these schools and the programs they offer, and then find the schools' online applications at NextSteps.Idaho.gov. If the college or university to which your child is applying charges an application fee, the fee you pay will be credited to your child's tuition bill when your child arrives on campus in the fall. Your child may send an application to more than one college or university, but the application fee will only be credited back by the institution they attend in the fall. The application *must be completed by February 15, 2017* in order to take advantage of this opportunity. If your child misses the February 15th deadline, an application may still be submitted, but admission will no longer be guaranteed.

Your Next Steps 

Your child may be eligible for free financial aid - up to \$5,815 of federal aid and up to \$7,000 of state scholarships for college per year. Learn more about Idaho's scholarship offerings, federal student financial aid and how to apply at NextSteps.Idaho.gov.

On behalf of the Idaho State Board of Education, we welcome your child to college and look forward to seeing you and your child on one of our campuses next fall.

Sincerely,

Emma Atchley, President
Idaho State Board of Education
